## STEWARDSHIP MESSAGE FOR YOUR CHURCH

Has your church established a Permanent Endowment Committee? What will your church do with funds received from a will? What are you doing to encourage giving now and later?

Church endowments often provide income to maintain the church building, generate funds for mission, or to enhance other ministries of the congregation.

The difference between this type of an account is that these funds are invested and distributed for perpetuity. In other words, established so it will give forever.

The endowment fund is NOT designed to replace regular giving or stewardship. It is to support mission and ministry beyond the regular operating budget of salaries, heat & light, or apportionments. It is NOT to be hoarded for a rainy day. We are called by the church to make disciples for Jesus Christ and to bring that message to the world.

It is up to each church but some of the areas that are used for endowment funds include - building maintenance and repair, mission programs, music ministries, children/youth ministries, scholarships to attend camps, small group ministries, reaching out to the elderly, or other special ways to extend the church!

Request the "Planned Giving Handbook" from the Foundation and let us help you walk through this process!
